—

1965

YACHTING PUBLICATIONS ISSUED BY THE COMMITTEE OF LLOYD'S REGISTER OF SHIPPING

REGISTER OF YACHTS

Published annually in April. Two supplements are issued, one with the Register and the second about the end of July. £4 0s. 0d.

FLAG BOOKLET (published 1961): £1 0s. 0d.

REGISTER OF AMERICAN YACHTS

Published annually in May from the Society's New York office. $20

This book contains the names, dimensions, and full particulars of yachts of the United States and Canada, so far as they are ascertainable; reproductions in colour of the burgees of yacht clubs and the private signals of yachtsmen; a list of yacht clubs with the names of their officers; an index of signal letters; late names of yachts; and a list of yacht owners of the United States and Canada, with their addresses, clubs and yachts.

RULES FOR THE CONSTRUCTION AND CLASSIFICATION OF YACHTS:—

Vol. I WOOD AND COMPOSITE YACHTS (Sailing, Auxiliary, and Full Power). £2 2s. 0d.

Vol. II STEEL YACHTS (Sailing, Auxiliary, and Full Power). £2 2s. 0d.

Vol. III YACHTS OF THE INTERNATIONAL RATING CLASSES (Wood and Composite). £1 10s. 0d.

PROVISIONAL RULES FOR THE CONSTRUCTION OF REINFORCED PLASTIC YACHTS. £1 10s. 0d.

A GUIDE TO MACHINERY AND ELECTRICAL EQUIPMENT IN YACHTS 5s. 0d.

YACHT SERVICES. A brochure supplied free describing the services Lloyd's Register of Shipping offer during construction of yachts built of conventional materials and the moulding of hulls in reinforced plastic. It also contains details of the surveys that can be provided for existing yachts.

Enquiries regarding the above publications should be addressed to

The Editor, Register of Yachts, Lloyd's Register of Shipping, 71, Fenchurch Street, London, E.C.3.

REGISTER OF YACHTS

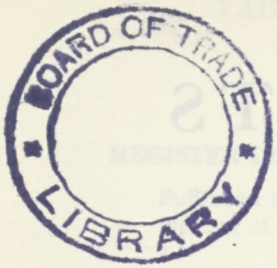
78TH EDITION

LLOYD'S REGISTER OF SHIPPING LONDON



A 95623

THE REGISTER OF YACHTS

Subscribers are entitled to have full particulars of their yachts entered in the Register, irrespective of size; otherwise it is the practice to restrict the entries in general to sailing yachts of a sail area not less than 300 sq. ft. and to motor yachts of 25 ft. and over on the water line.

The Racing Yacht Section, which immediately follows the main Register Section, includes in addition to the sail numbers and names of yachts of the International Rating Classes, Ocean Racing Classes, etc., the sail numbers, names, and names of the Owners of yachts holding valid Certificates of Rating in all the British National Classes. Similar particulars are given as far as possible for 5·5 Metre, Dragon and other national classes overseas and this information is supplied by the respective National Authorities.

The mere entry of the particulars of a yacht in the Register of Yachts does not constitute either classification or official registration. Classification is referred to on the next page, but official registration, not being a function of Lloyd's Register of Shipping, is dealt with by the National Authority of the Country to which the yacht belongs. In the British Isles it is effected through the Commissioner of Customs, who is represented as Registrar by the Chief Officer of Customs at the Port of Registry chosen by the Owner. In countries of the British Commonwealth it is a matter for the officer appointed by the appropriate authority. Further information on the subject of official registration may be obtained from the Registrar-General of Shipping and Seamen, Llantrisant Road, Llandaff, Cardiff.

Cuttings of the craft listed in the main section of the Register are sent to Owners annually at the beginning of October, and should be returned promptly with any necessary comments. In the absence of any information from the Owners or other sources over a considerable period, it is assumed that the standing entry is no longer reliable, and the particulars are removed from the Register.

The Register lists details of many Canadian yachts; but as regards United States craft only the larger yachts and those holding the Society's classification are included in this volume, as a separate Register containing a list of yachts of the United States and Canada is published annually in May from the Society's office at 17, Battery Place, New York.

The Editor wishes to thank Yacht Owners for their co-operation and hopes that this will be continued so that the Yacht Register may be as comprehensive and accurate as possible.

YACHT CLASSIFICATION, BUILDING UNDER SUPERVISION WITHOUT CLASSIFICATION AND CONDITION SURVEYS

Classification

Classification is open to all types of yachts provided the constructional details conform to the requirements laid down by Lloyd's Register of Shipping. An Owner desiring classification should, when ordering a new yacht, specify that the yacht be built to Lloyd's Register of Shipping class. The Builder will then, through the Designer, become responsible for submitting the necessary plans for the Society's approval, and will request a special survey during construction in accordance with the Society's requirements, so that the appropriate class may be assigned on completion.

Yachts constructed throughout in accordance with the Society's Rules will be assigned a classification of ✠**100A1.** The Cross shows that the yacht has been built under the Society's supervision throughout. **100A** implies that the materials used and the workmanship involved conform with good practice. The ultimate digit **1** indicates that the yacht carries anchors, cables and warps adequate for its size. The Cross itself is retained in the book even if the classification is later discontinued. In certain cases, yachts which have not been built under the Society's control but whose scantlings conform to the rule requirements can be accepted for classification after a rigorous survey and will be assigned the notation **100A1**. They will not be entitled to the Cross.

For maintenance of classification, periodical surveys and repairs are carried out under the supervision of Lloyd's Register of Shipping Surveyors; such a procedure helps to keep a yacht in a high state of efficiency and to preserve her sale value, in addition to the benefit of having a competent, independent and experienced organisation to safeguard the Owner's interest. A record of each periodical survey is made in the Yacht Register.

Building under supervision without classification

This is a service similar to classification which is available to owners or builders whose yachts are not being constructed to the full requirements of the Rules. However, Lloyd's Register will not undertake this service if it is considered that the design or scantlings are unsatisfactory. In addition, the Society must be assured that the structural arrangements meet the owner's or designer's requirements.

Plans of the hull must be forwarded for inspection before surveys of this type can be undertaken.

If required, a general examination of the machinery and electrical equipment may be carried out on request to establish so far as practicable that they are in no way detrimental to the hull. It will be realised that the limited scope of this survey will not enable the surveyor to certify the quality of the materials or workmanship of the machinery or electrical equipment, except as may be ascertained by general external examination and as a result of a running trial.

On completion and after examination afloat, if the requirements for the hull and machinery and the electrical equipment have been met, the Committee will issue a certificate to this effect and a five pointed star will be inserted in column eight of the Register of Yachts against the particulars of the yacht. This indicates that the yacht has been built and the machinery and electrical equipment installed under the Society's supervision and that as far as can be ascertained from the general examination and trial after installation the machinery and electrical equipment were found to be satisfactory. If necessary, supervision of hull only can be arranged and a certificate issued but this will not qualify for the five pointed star.

Reinforced Plastic Yachts

The preceding paragraphs also apply to reinforced plastic yachts, but, in addition, it is a prerequisite that hulls shall be moulded in premises which have been inspected and approved by Lloyd's Register of Shipping. The current list of Approved Reinforced Plastic Boat Builders and Moulders is printed on page xvi.

Condition Surveys

The Committee of Lloyd's Register of Shipping are prepared to undertake Condition Surveys on yachts, whether classed or not, prior to purchase or in any other circumstances. Details of this service, and of the terms on which it is undertaken, will be supplied upon request to the Yachting Manager.

Lloyd's Register of Shipping Surveyors qualified to undertake surveys on wood yachts are stationed at London, Glasgow and Southampton and can, by arrangement, hold surveys at other ports in the U.K.

NOTE.—These surveys are explained in more detail in the Yacht Services brochure described at the beginning of this Register.

R. M. Turnbull, *Deputy-Chairman and Chairman of the Sub-Committees of Classification*
Geoffrey Milling, *Deputy-Chairman and Treasurer*

KEY TO REGISTER OF YACHTS

SYMBOLS OF CLASSIFICATION, COLUMN 8

(All Abbreviations employed in the Register are explained in the Alphabetical Key, page xiv.)

100A1 This character is assigned to wood, composite, reinforced
Yacht plastic and steel yachts built in accordance with, or by standards equivalent to, the relevant requirements of the Society's Rules for the construction and classification of yachts.

In the case, however, of yachts designed and intended for racing under the International Rating Class Rules, the following characters of classification and notations are assigned, viz:—

R with a term of years. This class is assigned to wood and composite yachts up to 14½ metre rating, designed for racing under the Rules of the International Yacht Racing Union. The figures prefixed to the character thus, **16R**, **14R**, indicate the term of years for which the yacht is initially classed.

100A1 with notation Built to Int. Cruiser/Racer Class—metres.
Yacht This class is assigned to wood yachts designed for racing under the Rules of the International Yacht Racing Union for the International Cruiser/Racer Classes, 7 to 12 metre rating, and built in accordance with the Society's "Rules for the Construction and Classification of Wood and Composite Yachts".

100A1 with notation "International Rating".
Yacht This class is assigned to composite or steel yachts over 14½ metre rating designed and intended for racing under the Rules of the International Yacht Racing Union for International Rating Classes, and built in accordance with the Society's Rules for the construction and classification of steel or composite yachts as applied to International Rating Classes.

In the case of wood and composite yachts classed **100A1** Yacht a grading number regulated by the description of the timber and fastenings used in the construction of the hull and computed as described in the Construction Rules, will be entered in the Yacht Register thus: Grading 14.

A wood or composite yacht already holding the class A with a term of years will be eligible for the class **100A1** Yacht, provided that at a Special Survey the yacht be found to be in accordance with, or of standards equivalent to, the full requirements of the Society's Rules for this class.

Wood, composite or steel yachts now classed A in the Yacht Register, without a term of years, will continue to be so classed so long as they comply with the Society's Rules and requirements for periodical surveys and maintenance; yachts so classed will not be eligible for transfer to the class **100A1** Yacht. The class A will not be assigned to any yacht submitted for classification or reclassification.

SYMBOLS OF CLASSIFICATION, COLUMN 8—*continued*

1 The figure **1** after the character signifies that the yacht is well and efficiently equipped (*see* Equipment Tables of the Society's Rules for Yachts).

A line thus — after the character signifies that full requirements of the Society's Rules in respect of equipment have not been complied with.

In the case of yachts classed **R**, the figure **1** for equipment is not applicable, the equipment being required in these cases to be in accordance with the Rules for Yachts of the International Rating Classes before the class is assigned.

✠ This sign before the character thus, **✠100A1**, denotes that the yacht has been built under the Special Survey of the Society's Surveyors.

LMC This notation (Lloyd's Machinery Certificate) indicates that the engines have been built in accordance with the Society's Rules. If preceded by the sign ✠ it signifies that the engines have been built under Special Survey of the Society's Surveyors.

Machinery classification is compulsory in either full power or auxiliary yachts only when the maximum continuous service rating of each propelling engine as stated by the manufacturers exceeds 200 b.h.p. Classification of an engine below this rating is not essential but can be arranged at Owner's request.

The notation **(No longer classed)** indicates that classification which had previously been assigned to machinery has been withdrawn by Owner.

NE Indicates new engines accepted for class, the date following being the date of build. If preceded by the sign ✠ it signifies that the engines have been built under Special Survey of the Society's Surveyors.

When Column 8 is left blank, the yacht has never been classed in the Society's Register of Yachts.

Owing to the number of yachts still classed in the Yacht Register under Rules which are now superseded the following explanations of the old classification symbols are continued:—

A Character assigned to wood or composite yachts. The figures prefixed to the character thus, **18 A, 12 A**, indicate the term of years for which the vessel is at present classed. Where this term follows the sign ✠ (indicating construction under the Special Survey of the Society's Surveyors) it commences at the date of build shown in Col. 6. Figures placed within parentheses thus, **(17) A, C(11)**, indicate the expired term of years—originally if on the first line, and on continuation or restoration if on lower lines.

A Without a term of years indicates that the yacht, though not built according to the Society's Rules, is considered worthy of the class assigned.

EXPLANATION OF RECORDS IN THE REGISTER OF YACHTS

N.B.—The material of construction, formerly shown in column 2, is now omitted except where other than wood.

Bermudan Sloop, Bermudan Yawl, etc., are described in column 2 simply as Sloop, Yawl, etc.

Consecutive No. (column 1). The number in Black figures is the consecutive number of the yacht in the Register and usually changes with each edition.

Official No. (column 1). The number in lighter figures is the official registered number of the yacht, assigned by the National Authority. In the case of British and Commonwealth yachts it is assigned by the Registrar-General of Shipping and Seamen, Llantrisant Road, Llandaff, Cardiff.

Signal Letters (column 1). These are assigned by the National Authorities.

Tonnage (column 4). Thames Measurement Tonnage is an approximate representation of the internal capacity of a yacht derived from a system of measurement adopted by the Royal Thames Yacht Club in 1854 and amended in 1962. The formula for computing the Thames Measurement Tonnage is as follows:—

$$\frac{(L - B) \times B \times \frac{1}{2}B}{94} = \text{Thames Measurement Tons}$$

Where:—

L = The length measured from the fore side of the stem at deck level to the after side of the stern post at deck level.

Where the stern post does not extend to deck level the measurement shall be taken to:—

(a) the prolongation of the line of the after side of the stern post to deck level;

(b) if there is no stern post, to the centre line of the rudder stock at deck level or the prolongation of that line to deck level;

(c) if there is no stern post or fixed rudder stock, or if the rudder stock is wholly abaft the transom, the measurement shall be taken to the after side of the transom at deck level.

B = Extreme breadth of hull, excluding protrusions such as rubbing strakes, beltings, chain-plates, vents, etc.

Measurements to be taken in feet and tenths of a foot.

The tonnage determined in accordance with the above formula shall be expressed to the nearest ton. Fractions of less than half a ton shall be ignored and fractions of half a ton and over shall be taken as one ton.

The rule shall not apply to yachts of more than one hull.

In the case of a British yacht officially registered but not classed with Lloyd's Register, the registered length is used in the Yacht Register in computing the Thames Measurement Tonnage.

This tonnage appears in the Register in the case of every yacht where these dimensions are known, and is printed below the official tonnages where these tonnages are given.

Where yachts are officially registered, the official registered tonnage measured according to the law of the country to which the yacht belongs is recorded in type like that shown at the side hereof. — 204·51 (Net) 546·65 (Gross)

When the tonnages are given in italics, they are not those assigned by the country to which the yacht now belongs. — *204·51* (Net) *546·65* (Gross)

Dimensions (column 5). The dimensions which are printed on the top line are given in feet and tenths of a foot and are those employed for calculating Thames Measurement Tonnage. In the case of yachts classed by Lloyd's Register, these are obtained from the Society's Surveyor's First Entry Report of Survey; where yachts are not classed by the Society, but are officially registered, the dimensions are obtained from the vessel's Certificate of Registry. In other cases the dimensions are as given on returns received from Owners, Builders, etc.

The **length** entered on the top line is the length measured from the fore side of the stem at deck level to the after side of sternpost at deck level, except in the case of unclassed yachts which are officially registered as British vessels, when the registered length is recorded.

The length entered on the second line is the length over all.

The length entered on the third line is the length on the water line.

EXPLANATION OF RECORDS IN THE REGISTER OF YACHTS—*continued*

The **breadth** recorded is the extreme breadth.

The **depth** is taken from the top of floors to top of upper deck beams amidships.

The **draft** is the maximum draft to bottom of keel.

The **sail area** recorded is the area of the working sails and is given in square feet.

Date of Build (column 6). This is recorded as follows in the cases of yachts built under Lloyd's Register Special Survey:—

Prior to 1903	Date of Launch.
From 1903–1924	The last date of survey for first entry of classification when completed within six months of launching; otherwise six months after date of launch.
After 1924	Date of completion of Special Survey.

Internal Combustion Engines (column 7)—

Oil Engine indicates an internal combustion engine using heavy oil as fuel.

Petrol Motor indicates an internal combustion engine using petrol or other highly volatile oil as fuel.

Paraffin Motor indicates an internal combustion engine using paraffin oil as fuel although started up on petrol.

Engine particulars (column 7) include the number and diameter of cylinders and length of stroke. Since 1952, however, in the case of unclassed machinery, the brake horsepower, as published by the engine makers, has been inserted in place of the cylinder bore and stroke where this information is known.

An asterisk * (column 3) before an Owner's name indicates that he has obtained a Certificate of competency as Master, as issued by the National Authority.

A five-pointed star ★ (column 8) indicates that the construction of the yacht has been supervised by a Surveyor to Lloyd's Register of Shipping, that satisfactory trials have been held and that the materials and workmanship have been found satisfactory. It does not mean that the yacht has been built to the requirements of the Society's Rules for Classification of Yachts.

The **R.O.R.C. Ratings, Time Correction Factors** and **Basic Speed Figures** are as furnished by the Royal Ocean Racing Club.

Signs and Abbreviations

Abbreviation or Sign	No. of Column	Signification
a	6	Aft
alts	2	Alterations to Rig
	6	Alterations to Hull
APT	6	After Peak Tank (with tons)
AS	8	Annual or occasional Survey as prescribed in the Society's Rules for Yachts of the International Rating Classes (with date)
B	7	Boilers (with number prefixed)
BF	6	Bronze floors
Bgn	2	Brigantine
BH	6	Bulkheads (with number prefixed)
BHP	7	Brake Horse Power as specified by the manufacturers
BiS	8	Biennial Survey as prescribed in the Society's Rules for Yachts (with date)
BK	6	Bar Keel (with depth)
BSF	2	Basic Speed Figure
C	6	Coppered (with date)
C	7	Compound Engines
C	8	Placed before figures in parentheses thus, **C(8)**, signifies the term of years for which the class of the yacht had been continued but which has now expired
c.b.	2	Centre Board
CF	6	Copper fastened
compl.	6	Completed
ContS	8	Continuation of Class with date of survey, also number of years for which the class is continued
conv.	2	Converted
CS	8	Continuous Survey of the machinery
Cut	2	Cutter
Cy.	7	Cylinders (with number)
DB	6	Double Bottom
DBS	8	Donkey Boiler surveyed (with date), as prescribed in the Society's Rules for Yachts
Ddy	2	Dandy
Dr	8	Hull Special Survey (with date) at which drilling tests have been made
DS	8	Docking Suvrey (with date) as prescribed in the Society's Rules for Yachts
DT	6	Deep Tank (with tons)
ES	8	Engine Special Survey (with date) as prescribed in the Society's Rules for Yachts
f	6	Forward
FPT	6	Fore Peak Tank (with tons)
FW	6	Fresh Water
GF	6	Galvanised steel fastenings
Grading	8	Grading (with number). This grading number is regulated by the standard of the timber and fastenings used in the construction of the hull of a wood or composite yacht when originally built or at date of classification
Gtr	2	Gunter
HT	8	Half Time Survey (with date) as prescribed by the Society's Rules for International Rating Class Yachts
IB	6	Iron Bolts
IHP	7	Indicated Horse Power as specified by the manufacturers.
I.C/R	2	International Cruiser/Racer Class (with rating)
I.R.C.	2	International Rating Class (with rating)
Kch	2	Ketch
Lch	2	Launch
len.	5	Yacht lengthened (with date)
LMC	8	Lloyd's Machinery Certificate assigned to the machinery denoting that it has been constructed in accordance with the Society's Rules. If preceded by ✠ signifies that the machinery was constructed under the supervision of the Survevors to Lloyd's Register
lrp	6	Large repairs to hull of yacht
Lu	2	Lugger
Mat	8	Materials (prefixed by the lower and higher terms of years assigned). These material gradings are regulated by the standard of the timber and fastenings used in the construction of the hull of an **R** class yacht when originally built or at date of classification

Abbreviation or Sign	No. of Column	Signification
MBS	8	Main Boiler Survey (with date)
Mchy aft	2	Machinery fitted aft
MN	7	Machinery Numeral. For yachts classed with Lloyd's Register the numeral is one-fifth of the total horsepower for which the prime movers have been approved
ModSS	8	Followed by a term of years denotes a modified Special Survey has been held to maintain class for the limited period stated
mot. inst.	7	Motor installed (with date)
MT	6	Midship deep tank (with tons)
N or n	8	New
NB	6	New Bottom (with date)
ND	6	New Deck (with date)
NDB	8	New Donkey Boilers (with date of build). If preceded by ✠ signifies that the boilers were built under survey of the Society's Surveyors
NE	8	New Engines (with date of build). If preceded by ✠ signifies that the engines were built under Special Survey of the Society's Surveyors
nkl	6	New Keel
OF	7	Fitted for oil fuel (date) FP above 150° F.
p	8	Port
pt	2 or 6	Part
Q	7	Quadruple Expansion Engines
R	8	Placed before figures within parentheses, thus **R(8)** signifies the term of years for which the class of the yacht was restored, but which has now expired
reb.	6	Rebuilt
RefMchy	2	Refrigerating Machinery
rem.	2 or 7	Removed
RenS	8	Renewal Survey (with date) as prescribed in the Society's Rules for Yachts. If the survey took place prior to revision of the Rules in 1954 the term of years for which the Class is renewed is shown
RestS	8	Restoration of Class, with date of survey, and number of years for which the character **A** or **R** is restored
s	8	Starboard
SA	7	Single Acting prefixed by number of stroke cycle
Sc	2	Screw
Sch	2	Schooner
(side ppr)	7	Side Propeller
Slp	2	Sloop
Smk	2	Smack
SPS	8	Steampipe Survey (with date)
SR	8	Single Reduction
SS	8	Hull Special Survey (with date) as prescribed in the Society's Rules for Yachts
Stm	2	Steam
t	6	Tons (water ballast)
T	7	Triple Expansion Engines
TCF	2	Time Correction Factor
Trp Sc	2	Triple Screws
TS	8	Tailshaft Survey (with date) as prescribed by the Society's Rules
TS(B)	8	Tailshaft Survey (with date), as prescribed by the Society's Rules, of shaft of bronze, stainless steel, or other similar approved material
TS(CL)	8	Tailshaft Survey (with date) as prescribed by the Society's Rules, of shaft fitted with continuous liner
TSN	8	Tailshaft renewed, and date
TS(OG)	8	Tailshaft Survey (with date) as prescribed by the Society's Rules, of shaft fitted with approved oil retaining glands at after end of stern bush
Twn Sc	2	Twin Screws
WB	6	Water Ballast
WTB	7	Water-tube Boilers
Ywl	2	Yawl

List of Approved Reinforced Plastic Boat Builders and Moulders

When boats of reinforced plastic construction are intended for classification with the Society, or when supervision of moulding is desired without classification, the hull is to be moulded at an approved works. The following firms have had their premises inspected and approved:—

UNITED KINGDOM

A.R.C. Marine Ltd., Littlehampton, Sussex.
Appleyard, Lincoln & Co. (Boatbuilders), Ltd., Ely, Cambs.
S. Bourne & Co. Ltd., Nottingham.

A/S Ancas, Arendal.
Arendal Lettmetallindustri Odd Simonsen & Co., Arendal.
Carsten Moen Plastfabrik, Vik
Einar Elverum Teknisk Bedrift A/S, Heggedal
Fjellstrand Batbyggeri, Omastrand.
A/S Fjordplast, Arendal
Herwa Plast, Grimstad.
Kristiansands Mek. Verksted A/S (Høllen Skibsverft A/S) Høllen pr-Kristiansand.
A/S Selco, Lysaker, Oslo.
Skibsplast Co., Evje pr-Kristiansand.

POLAND

Gdanska Stocznia Rzeczna, Gdansk.

SOUTH AFRICA

Maritime Industries (Pty) Ltd., Paarden Eiland, Cape Town.

SWEDEN

Bro Varv A/B, Kristinehamn.
A/B Malmo Flygindustri, Malmo.
Monark & Crescent Group, Varberg.
Ockelbo-Lundgren, Ockelbo.

March, 1965

Additional firms may have been approved since this list was printed.

When classification or supervision of moulding is required, the plans must be submitted for examination and the construction carried out under survey.

REGISTER OF YACHTS

1965

Extract from the Society's Rules

"The Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, but it is to be understood that neither the Society nor any Member of any of its Committees nor any of its Officers, Servants or Surveyors is under any circumstances whatever to be held responsible or liable for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any act or omission, default or negligence of any of its Committees or any Member thereof, or of the Surveyors, or other Officers, Servants or Agents of the Society."

Every effort is made to ensure the accuracy of the information contained in this book.

It must, however, be appreciated that many changes of ownership, name, class and other particulars occur during the currency of this edition and after the issue of the two Supplements.

The Register and Supplements can therefore never be entirely up to date.
